

XECAN Smart RFID Wristband

Wearable Technology

Introducing Safer and Smarter Cancer Care

The wristband will...

...Add a layer of safety to patient treatment

The wristband will automatically verify patient treatment plans as they enter the treatment room. It will also verify patient's treatment accessories in the treatment room.

...Welcome and queue patient to the clinic

The wristband will queue patients automatically as they enter the department. Therefore the treatment schedule status is accurately updated.

...Communicate patient wait time

The wristband will enable the Xecan system to text patients if there is a delay in the clinic. Estimated wait times are provided as patients enter the clinic. Staff are notified if a patient has been in an exam room for too long.

Features

Battery-free

Waterproof

Hypo-allergenic

Specifications

EPC Class 1 Gen 2:
EPC 96 bits to 128 bits
512 bit Memory

Frequency:
865-868MHz,
902-928MHz

Physical Size:
13 mm x 35 mm x 44 mm

Operating Temperature:
-40°F to 185°F
(-40°C to 85°C)
